

I am sickened by the actions of the National Broadcasters Association (NAB) and the Federal Communications Commission (FCC) regarding MY XM Satellite Radio which I PAY FOR OUT OF MY OWN POCKET!!! I TOTALLY REFUSE to listen to terrestrial radio because of what the NAB and the FCC have done to DESTROY it. If their argument is that XM should not be allowed to provide its PAYING listeners/subscribers with "locally oriented" content, I will ask them to remember what they have done to DESTROY locally owned and operated radio stations throughout America in the first place!!! I listen to Channel 212 each and every single time before I leave my home to get valuable up-to-the-minute weather forecasts and traffic updates which I was clueless about before this service was available because, like I said, I REFUSE TO LISTEN TO TERRESTRIAL RADIO!!! I also refuse to watch local television in lieu of DIRECTV!!!
